

Featured Program - Patagonia Hike and Kayak

This Chile Glacial Trek & Kayak adventure will challenge your abilities with nine days of trekking and kayaking through intensely glaciated mountains, pristine lakes, and dense forests.

Regarded as one of the classic hikes on earth, together we will explore Torres del Paine National Park from the granite peaks of Las Torres and Los Cuernos to the meandering trails of the Nire Forest. The intense landscape will provide an amazing backdrop as we cross over creeks, scramble up rock gardens, and paddle through ice carved rivers on our way to experiencing one of the worlds true natural wonders.

This trekking and kayaking experience will encapsulate the best of the Patagonian Andes and provide an unforgettable opportunity to discover Chile and the unique South American terrain.
